

Campus massing view

Kothrud, Pune • isometric, viewed from the south-west

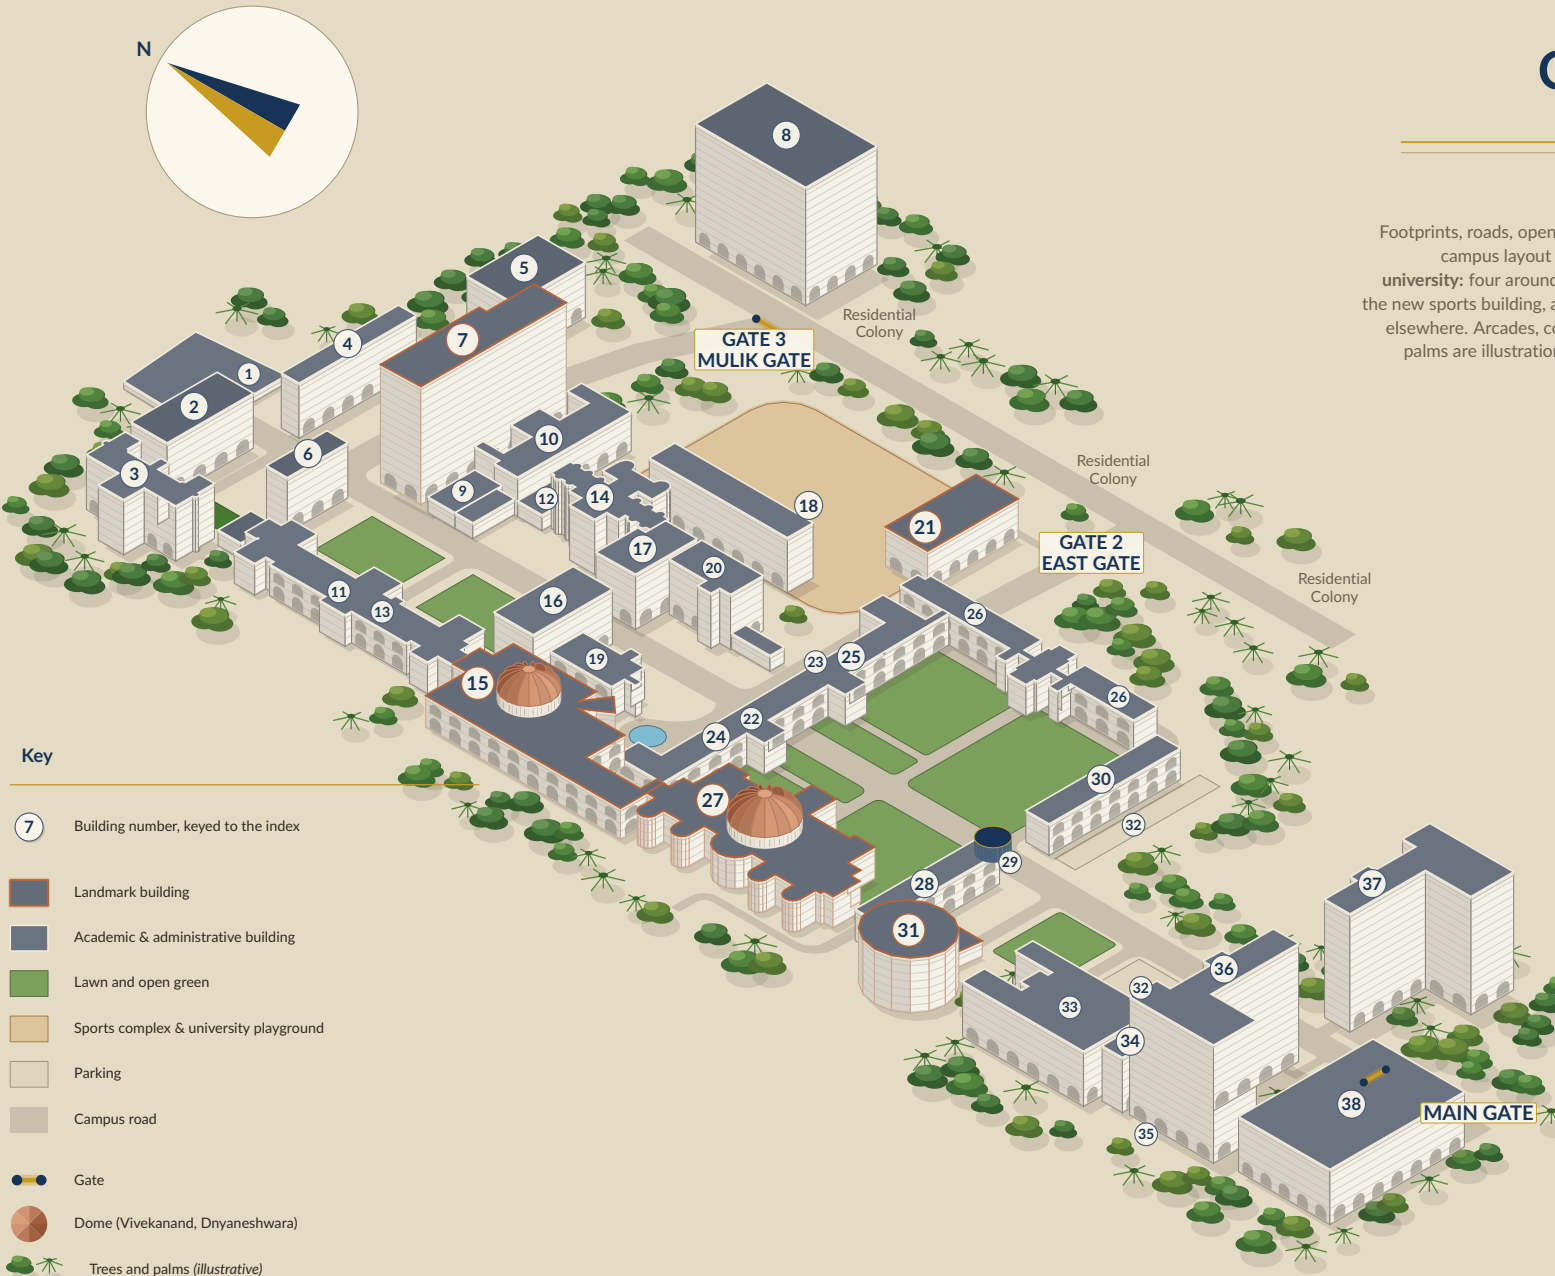

Footprints, roads, open space and the two domes are traced from the university's official campus layout sheet. Heights follow approximate storey counts supplied by the university: four around the domes and the quadrangle they enclose, five at Maitreyi and the new sports building, about fifteen at Saraswati, Ganga, Vyas and Chanakya, six to eight elsewhere. Arcades, cornices and banding are stylised character, not a survey; trees and palms are illustration. The buildings are numbered on the drawing and named below.

Index of buildings

Numbered north to south, then west to east.

	38 VISHWAKARMA

BHARDWAJ and PARKING are set twice by the university: one number, two discs. The SECURITY AND VIGILANCE OFFICE stands wholly behind Saraswati and cannot be seen from here: the flat plan names it in place. Five small blocks carry no name on the official sheet – west of Prayag, south of Encave Cafeteria- 2, south of Gautam, east of Agastya, and along the playground's west side – so they too are left unnumbered. Lawn names are carried on the flat plan, not here.
