THE HEARTBEAT OF MIT-WPU

November - December | Volume 26

Reflection on Milestones & Memories

Ushering in 2025

with Pride and Purpose

From the Desk of **Dr. Rahul V. Karad**, Executive President, MIT World Peace University

As we step into 2025 with optimism and ambition, it is a moment to reflect on the remarkable achievements that have recently brought pride to the MIT-WPU community.

A shining example of our students' brilliance came from the Department of Electrical and Electronics Engineering's STeRG team. Their development of a space payload for ISRO's PSLV C60 launch demonstrated their technical expertise and highlighted the spirit of Atma Nirbhar Bharat which we cherish at MIT-WPU.

Adding to this pride, two alumni from the MIT School of Government, Shri Sumit Wankhede and Shri Hemant Ogale, emerged victorious in the Maharashtra Assembly Elections. Their success underscores the leadership training and dedication to public service that defines our institution.

The upcoming year promises to be equally dynamic. From 8 to 10 February, the 14th edition of the Bharatiya Chhatra Sansad will turn our campus into the largest classroom of future political leaders, where politically and socially active students have a dialogue that shapes ideas which transform the nation. This year's eminent speakers include notable leaders such as Shri Arun Govil, Smt Khushbu Sundar, Shri Satish Mahana, Shri Pawan Khera, Shri Vijay Kumar Sinha, Shri Awadesh Narain Singh, and Shri Thomas A. Sangma.

Simultaneously, we will host Conclave 2025 under the National Legislators Conference Bharat. This platform will gather over 200 MLAs and MLCs to exchange ideas and best practices for constituency development, reflecting our commitment to shaping future governance.

On 3 February, Founders Day will mark another milestone with the prestigious Bharat Asmita National Awards. This year, we will honour six visionary leaders: Dr Abhay Bang, Prof Bharat Bhaskar, Dr Soumya Swaminathan, Sriram Mohan Naidu Kinjarapu, Vivek Agnihotri, and Shekhar Sen. Their contributions inspire us to aim higher and do better in every field.

As we embrace the opportunities and challenges of the new year, let us set ambitious goals and work collectively to achieve them. Through innovation, leadership, and service, we can continue to uphold the core values of peace, progress, and purpose that define MIT-WPU.

Here's wishing all our students, faculty, and stakeholders a year filled with success, happiness, and significant achievements. Together, let us make 2025 a transformative year for ourselves and the world around us.

Warm regards,

Dr. Rahul V. Karad

Executive President, MIT-WPU, PUNE

HAPPENINGS

Dare to Overcome Conference

Dr. Shalini Tonpe, Assistant Professor Priya Kale, and Assistant Professor Rahul Landge from MIT WPU's School of Education presented their research report on "Adapting an International Human Rights & Business Skills Curriculum for the Indian Context" at the "Dare to Overcome" Conference in New Delhi, organised by Dr. Brian J. Grim, Founding President of the Religious Freedom & Business Foundation, Washington D.C. The pilot study involved 12 trainee teachers and reached 368 students across five schools supported by Honorable Vice Chancellor Dr. R. M. Chitnis.

Roundtable discussions included insights from UK and US MPs on education policy and corporate social responsibility, with faculty engaging corporate leaders from American Airlines, Salesforce, and Dell India Ltd.

Integrative Ayurveda:

A Holistic Approach to Non-Communicable Diseases

At the 10th World Ayurveda Congress held in Dehradun from 11 to 15 December 2024, Dr. Alex Hankey presented a plenary talk on "Integrative Medicine: Utilizing Ayurveda to Address the Non-Communicable Disease Epidemic." His presentation emphasised the integration of India's AYUSH systems with modern biomedicine to create a holistic approach to health. Highlighting Ayurveda's unique ability to harness the body's self-healing mechanisms, Dr. Hankey discussed how practices such as Yoga Therapy and Ayurveda's daily routines can reverse chronic disease imbalances. He outlined the government's initiative to educate medical students in Integrative Medicine and proposed a new paradigm in biology—Integrative Biology—focused on optimal health regulation. The session concluded with an exploration of Ayurveda's comprehensive stages of disease development, advocating for its potential to transform health care in India and globally.

International Conference on Business & Technology

Varad Vishwarupe, a standout first-year PhD student from MIT World Peace University (MIT-WPU), recently presented his innovative research at the International Conference on Business and Technology held at Lady Margaret Hall, University of Oxford, on 21 to 22 November 2024. His paper, "Predicting Mental Health Ailments Using Social Media Activities and Keystroke Dynamics with Machine Learning," aims to develop a framework for early detection of mental health disorders by analysing typing behaviors influenced by emotional states. This significant contribution not only highlights Varad's academic prowess but also reflects MIT-WPU's commitment to advancing research that addresses critical societal issues. The paper garnered considerable interest from international academics, showcasing the university's dedication to fostering impactful research in the field of mental health. Varad's collaboration with Professor Alex Hankey facilitated valuable networking opportunities, further enhancing MIT-WPU's reputation on a global stage.

Journal Published: Journal of Ayurveda & Integrative Medicine

A proud moment for MIT-WPU!

Prof. (Dr.) Rupakjyoti Borah, Associate Dean (External Relations), School of Liberal Arts, presented a groundbreaking paper at a prestigious academic conference jointly organised by Keio University, Japan, under the India-Japan Science Technology and Innovation (STI) Forum.

This accomplishment highlights the global academic contributions of MIT-WPU's esteemed faculty in fostering innovation and collaboration across borders.

Prof. Samarth Patwardhan, Head of the Centre for Subsea Engineering Research and esteemed faculty member at MIT-WPU's School of Petroleum Engineering recently presented his paper, "Developing a State-of-the-Art Subsea Engineering Laboratory for Training the Next Generation Energy Industry Manpower," at the prestigious ADIPEC Exhibition & Conference.

This presentation marks a significant milestone in MIT-WPU's commitment to advancing industry-focused research and innovation, and it positions our Subsea Lab at the forefront of global energy education.

National Academic Immersion Programme (NAIP)

Third-year Computer Engineering students from MIT World Peace University engaged in the National Academic Immersion Programme at NIT Goa in December 2024, focusing on Machine Learning and Deep Learning. The program combined lectures from experts with practical lab sessions, enhancing their skills. Additionally, students enjoyed a cultural excursion on Christmas Day, fostering community through evening activities. The event concluded with a Valedictory Function where participants received certificates, acknowledging their academic and cultural achievements, with gratitude expressed towards NIT Goa for their hospitality.

Ashadh ka Ek Din: Hindi Play

The IBTIDA Club of the School of Liberal Arts proudly presented the Hindi play "Ashadh Ka Ek Din", directed by Dr. Satyendra Prasad at the Maharashtra Rajya Natya Spardha. Written by Mohan Rakesh in 1958, this play is recognised as the first modern Hindi drama.

The performance received enthusiastic acclaim from both the audience and judges, showcasing the dedication and talent of the students involved. Their participation not only underscores the club's commitment to promoting theatre but also enriches the cultural landscape of the Maharashtra Rajya Natya Spardha.

Training on Elevator system safety essentials

Aim of Training and Outcome

The training session focused on enhancing elevator safety awareness among security personnel, grade-4 staff, and building executives. Participants learned to identify risks and escalate non-compliance issues. Key topics included Safety Brakes, Overspeed Governors, Door Sensors, Fireman Switches, and CCTV.

Training Highlights and Outcomes

- ★ 90% of attendees scored over 50%, indicating a solid understanding of safety.
- ★ 75 participants achieved scores above 70%, showing excellent grasp of key concepts.
- ★ 57% scored above 80%, reflecting advanced knowledge and readiness to apply their learning.

The program emphasized practical knowledge of critical components and the importance of proactive safety checks, fostering a safer operational environment and accountability among staff.

A Fireside Chat on the Future of Film and Advertising

On 13 November 2024, MIT-WPU's Media and Communication Department hosted a "Fire-Side Chat" with filmmaker R. Balki and TV presenter Siddharth Kak. The event fostered collaboration between academia and creative industries, with Balki sharing insights on his journey from advertising to filmmaking, the evolution of media, and the significance of authenticity in storytelling. He inspired students to passionately pursue their creative ideas, concluding with an engaging Q&A session that encouraged critical thinking about the future of media.

Marketing Meet 2024: Nirmana 3.0

Nirmana 3.0 highlighted the pivotal role of technology in strategic marketing for business success, shaping a future of AI, personalisation, and innovation. Held on 22 November 2024, the event featured Mr. Nilesh Biniwale, General Manager at Pattern India, who shared insights on achieving 7x growth through AI solutions, emphasizing innovative business models over technology. Mr. Maharshi Chowbey discussed the significance of storytelling in modern marketing, focusing on hyper-personalization via Generative AI and the Metaverse. The event reinforced that strategic technology use in marketing is essential for thriving in today's competitive

90th Annual Conference of the Indian Mathematical Society (IMS)

MIT World Peace University (MIT-WPU) made history by hosting the 90th Annual Conference of the Indian Mathematical Society (IMS), marking it as the first private university to do so. Held from 23 to 26 December 2024, the conference transformed the Department of Mathematics and Statistics into a hub for mathematical innovation, featuring prominent figures such as Prof. Rajat Moona, who highlighted mathematics' critical role in fields like AI and climate modeling. The event included discussions on advancing mathematical education and research, with contributions from leading mathematicians and a vision articulated by MIT-WPU's founder, Prof. Dr. Vishwanath D. Karad, emphasising the unifying power of mathematics in science and philosophy

XXIX Endowment Lecture Series and Orientation Programme

The XXIX Endowment Lecture Series, hosted by the UNESCO Chair Programme for "Culture of Peace" at MIT World Peace University, occurred from 23 to 26 December 2024. This event showcased prominent speakers and themes focused on promoting peace, democracy, and human rights. The opening ceremony on 24th November honored Philosopher Saints Shri Dnyaneshwara and Shree Tukaram, emphasizing global peace. Notable attendees included Chief Guest Hon'ble HBP Yogiraj Maharaj Gosavi Paithankar and Special Guest Pandit Vijayshankar Mehta Ji. The series featured lectures on education, spirituality, and the synergy of science and religion, complemented by daily yoga sessions. It concluded on 30 November with a valedictory function celebrating contributions to law and society while reinforcing a commitment to peace through education and dialogue.

Constitution Day Lecture Series

An enriching Constitution Lecture Series organised by School of Economics and Commerce, MIT-WPU, featured thought-provoking sessions by Lt. Gen. A K Singh (Retd), former Lt. Governor of the Andaman & Nicobar Islands and Ex-General Officer Commanding-in-Chief, Southern Command. This series of lectures brought invaluable insights about governance, leadership, and India's strategic growth.

School of Economics and Commerce

Classroom- 501 (Avanti Building), MIT-WPU.

International Symposium on Law and Peace

The MIT World Peace University School of Law, in partnership with the Pune District Bar Association, organized the International Symposium on Law and Peace (ISLP) on 22 to 23 November 2024. This event brought together legal professionals, youth, and policymakers to discuss conflict resolution and promote peace in a digital society. Justice G.A. Sanap from the Bombay High Court and Adv. Sangram D. Desai attended the inaugural ceremony as distinguished guests. The symposium fostered discussions on ethical leadership and sustainable peace, concluding with a ceremony honoring key contributors to law and society, including Justice Navin Sinha (Former Judge, Supreme Court of India), Adv. Dr. Lalit Bhasin (Former President, Bar Association of India), and Adv. Ashwani Dubey (Advocate on Record, Supreme Court of India)

SPOTLIGHT

Milestone in Space Exploration with Successful Launch of STeRG-P1.0 Payload

MIT World Peace University (MIT-WPU) Pune has marked a significant achievement in India's space sector by successfully launching its payload, STeRG-P1.0, on ISRO's PSLV-C60 on 30 December 2024. This accomplishment positions MIT-WPU among India's top four institutions involved in such launches. The 0.380 kg payload, crafted by the Space Technology Research Group (STeRG) within the Electrical and Electronics Engineering Department, aims to test MEMS-based IMU sensors and ARM-based microcontrollers for space applications. Led by a committed student team under faculty guidance, they overcame numerous technical challenges through rigorous testing. This success highlights MIT-WPU's dedication to innovation and student-led initiatives in space exploration.

Congratulations

TO THE MIT-SOG ALUMNI

for their resounding victory in the Maharashtra Assembly Elections..!

HEMANT OGALE

Indian National Congress (INC)
220 Shrirampur
MPG Batch 01

SUMIT WANKHEDE

Bharatiya Janata Party (BJP)
44 Arvi
MPG Batch 07

MIT-SOG Alumni Triumph in

Maharashtra Assembly Elections

A warm congratulations to MIT-SOG alumni Sumit Wankhede, MPG Batch 07 and Hemant Ogale, MPG Batch 01 for their outstanding victories in the Maharashtra Assembly Elections! Sumit, representing the BJP from Arvi, and Hemant, from the INC in Shrirampur, have demonstrated exceptional dedication and perseverance. Their successes not only showcase their individual efforts but also reflect the values nurtured during their time at MIT-SOG.

Nostalgia 24

On 22 December 2024, MIT World Peace University celebrated NOSTALGIA 24, drawing over 2,000 alumni, including 200 CXOs and 1,000 professionals. The event featured a CXO Alumni Meet led by Dr. Rahul V. Karad, with engaging discussions on smart city governance and women's empowerment. Keynote speeches by Swami Sukhabodhananda and Siddhant Narayan enriched the experience, fostering networking and mentorship opportunities among attendees. Dr. Vishwanath Karad emphasised the university's commitment to innovation and global peace, making the reunion a significant platform for future collaborations.

The One Pot Culinary Adventure

MIT-WPU recently organised two dynamic culinary workshops led by acclaimed MasterChef Pankaj Bhadouria, merging innovation with tradition and essential life skills for students.

One Pot Culinary Adventure engaged 12th graders in creating nutritious meals using just one pot, emphasising efficient cooking and sustainability. It equipped students with vital culinary skills, fostering creativity and resourcefulness.

Modern Masala Workshop guided hospitality students in reinterpreting Indian spices globally, sharing innovative plating techniques while honoring traditional flavours. These workshops exemplified a harmonious blend of heritage and modernity, preparing students to thrive in the culinary arts.

Pioneering Partnerships for Progress

MIT-WPU proudly announces its collaboration with the Ministry of Road Transport and Highways (MoRTH) through a landmark MoU. This partnership underscores our commitment to advancing academic excellence, driving innovation, and contributing to the nation's infrastructure development. Together, we aim to build a future of sustainable growth and engineering excellence!

MoU Between the Ministry of Road Transport and Highways (MoRTH) and MIT World Peace University (MIT-WPU), Pune

THE SPECIES WAS FIRST DOCUMENTED BY MIT-WPU ALUMNUS

Atharva Kulkarni, MSc in Environmental Science,
under the guidance of Dr. Pankaj Koparde
of MIT-WPU, Pune.

New species of jumping spider found on Baner hill, get 'tekdi' in their name

Aditi Shekar@timesofindia.com

Pune: Researchers have found a new species of jumping spider on Baner hill, yet again highlighting the region's rich biodiversity and the need to protect the city's natural landscapes.

The spider has been named *Oikarvicus tekdi*, after the Marathi word for hill, and takes the number of jumping spiders in India to 320.

The researchers observed the spider on a small plant in trees — common Baner hill — and documented its behaviour and habitat (between Jan and April) before confirming it as a new species. A spider species was last discovered in Pune over 30 years ago.

The species was first described by Atharva Kulkarni, an MSc student in environmental science from MIT World Peace University in Pune, and Rishikesh Tripathi from Christ College in Kerala. They were guided by MIT-WPU's Dr Pankaj Koparde and Christ College's Dr AV Sathishkumar.

Their study was published in the journal of *Arachnology*, an international peer-reviewed journal, on Monday.

Jumping spider named *Oikarvicus tekdi*

er-reviewed journal, on Monday

"We are thrilled to have discovered *Oikarvicus tekdi*," said Kulkarni. "The species is closer to *O. takensis* but has significant morphological differentiation. It was observed on trees with thick branches and dense foliage, specifically *Plumeria*, *Ficus*, and *Morinda*. We also found it at the Ram-Mada confidence area recently having a similar habitat."

This discovery brings renewed attention to the richness of urban biodiversity

in India and underlines the importance of preserving urban green spaces that support a variety of flora and fauna.

"We believe *O. tekdi* can become a member of Baner hill and other green spaces in Pune. We hope this discovery encourages people to look at urban hills and forests with a renewed sense of pride and responsibility. The discovery underscores the need for policies that protect urban biodiversity from threats posed by habitat loss and degradation and calls for immediate conservation," said Dr Koparde.

Tripathi said these spiders were essential for insect diversity. "We would need to plant only native trees to preserve them," he said, and added: "Any form of disturbing activity such as degradation and loss of hills, or planting exotic species of trees would break their habitat and lead to eventual decline."

The team is now working on further studies to understand the role *O. tekdi* and other indigenous species play in their ecosystem. They hope to publish a detailed paper on their findings, shedding light on the ecological impact and adaptations of this unique spider.

Source: www.timesofindia.com

Dr. Pankaj Koparde, a faculty member at MIT-WPU, along with alumnus Atharva Kulkarni (M.Sc. Environmental Science), has brought to light a remarkable discovery—a new species of jumping spider, now named after Tekdi, found on Baner Hill, Pune.

This groundbreaking work, featured in The Times of India, highlights the collaborative efforts between our faculty and students in advancing biodiversity research and environmental awareness.

Breaking new ground in environmental research!

Kudos to Team BOLT!

Team BOLT has achieved a remarkable milestone by winning the Best Aesthetic Design Award at the esteemed FMAE Moto Student India Competition. This prestigious event serves as a platform for engineering students to demonstrate their prowess in designing, building, and racing electric motorcycles. Team BOLT's innovative approach and commitment to excellence have set a new benchmark in motorcycle design, showcasing their technical skills and creativity. The competition not only highlights the talents of young engineers but also fosters a spirit of innovation within the automotive industry, paving the way for future advancements in electric vehicle technology.

Team Cloudweave shines at Smart India Hackathon 2024

Team Cloudweave truly stole the spotlight at the Smart India Hackathon 2024! This thrilling event, organised by the Ministry of Education, saw an astonishing 86,000 teams compete on 10 December 2024, tackling over 250 real-world challenges from various ministries and industries. Among the fierce competition, Team Cloudweave from MIT-WPU emerged victorious, securing a fantastic second place with their cutting-edge AI-based video generation project for ISRO. Their remarkable achievement showcases not only their technical expertise but also their exceptional teamwork and collaboration under expert guidance. This success underscores MIT-WPU's dedication to fostering innovation and hands-on learning.

AIChE - Chem-e-car represents india at ASC 2024 San Diego

MIT-WPU's Chem-E-Car team represented India at the ASC 2024 in San Diego, competing in the renowned Chem-E-Car competition. This unique event challenges teams to design cars powered solely by chemical reactions for both movement and stopping—pushing innovation and scientific knowledge to new heights.

Adding to the pride, MIT-WPU was honoured with the Outstanding Student Chapter Award for the 6th consecutive year by the American Institute of Chemical Engineers. This international recognition reflects our students' commitment to excellence, creativity, and leadership in the field.

Reflections in Words

नो शेव नवंबर

नो शेव नवंबर एक वैश्विक अभियान है, जिसका उद्देश्य कैंसर जैसी घातक बीमारी के प्रति जागरूकता फैलाना और पुरुषों के स्वास्थ्य को प्राथमिकता देना है। इस अभियान के अंतर्गत लोग पूरे नवंबर महीने शेविंग और ग्रूमिंग पर खर्च न करके उस धनराशि को कैंसर पीड़ितों के इलाज, जागरूकता कार्यक्रमों और शोध कार्यों के लिए दान करते हैं। यह न केवल आर्थिक मदद के माध्यम से कैंसर के खिलाफ लड़ाई में योगदान देता है, बल्कि स्वास्थ्य के प्रति जागरूकता और जिम्मेदारी को भी बढ़ावा देता है।

अभियान की शुरुआत और उद्देश्य

नो शेव नवंबर की शुरुआत २००६ में अमेरिका के एक परिवार के सदस्य मैथ्यू हिल ने की थी, जिन्होंने अपने पिता को कैंसर से खोने के बाद इस अभियान को शुरू किया। उनका विचार यह था कि शेविंग और ग्रूमिंग पर खर्च होने वाले पैसे को बचाकर कैंसर रिसर्च और इलाज के लिए उपयोग किया जाए। धीरे-धीरे यह अभियान वैश्विक स्तर पर फैल गया और लाखों लोग इसमें हिस्सा लेकर कैंसर जागरूकता के संदेश को आगे बढ़ा रहे हैं।

पुरुषों के स्वास्थ्य पर विशेष ध्यान

नो शेव नवंबर विशेष रूप से पुरुषों के स्वास्थ्य पर ध्यान केंद्रित करता है, जैसे- प्रोस्टेट कैंसर, टेस्टिकुलर कैंसर और मानसिक स्वास्थ्य। यह अभियान पुरुषों को प्रेरित करता है कि वे अपनी स्वास्थ्य समस्याओं को नजरअंदाज न करें और समय-समय पर चिकित्सीय जांच कराएं।

कैंसर की रोकथामरु आयुर्वेद का दृष्टिकोण

कैंसर जैसी गंभीर बीमारियों की रोकथाम के लिए आयुर्वेद में कई सिद्धांत और उपाय सुझाए गए हैं। आयुर्वेद के अनुसार, एक संतुलित जीवनशैली और सही खान-पान से रोग प्रतिरोधक क्षमता को मजबूत बनाकर कैंसर जैसी बीमारियों से बचा जा सकता है।

१ संतुलित आहार आयुर्वेद में सात्विक आहार जैसे ताजे फल, सब्जियाँ, हल्दी, अदरक, लहसुन, आंवला और तुलसी को शामिल करने की सलाह दी जाती है। ये खाद्य पदार्थ शरीर को डिटहक्स कर कैंसर रोधी गुणों से भरपूर होते हैं।

२ तुलसी और हल्दी का प्रयोग हल्दी में कर्कुमिन नामक तत्व होता है, जो प्राकृतिक रूप से कैंसर कोशिकाओं की वृद्धि को रोकने में सहायक है। तुलसी में एंटीअहक्सीडेंट्स होते हैं, जो शरीर में विषाक्त पदार्थों को दूर करने में मदद करते हैं।

३ योग और प्राणायाम योगासन और प्राणायाम जैसे अनुलोम-विलोम और कपालभाति शरीर में अहक्सीजन की मात्रा को बढ़ाकर कोशिकाओं को स्वस्थ रखते हैं और तनाव को दूर करते हैं।

४ त्रिफला चूर्ण का सेवन आयुर्वेद में त्रिफला चूर्ण को शरीर को डिटहक्स करने के लिए अत्यंत प्रभावी माना गया है। यह पाचन तंत्र को सुधारता है और शरीर की प्रतिरोधक क्षमता को बढ़ाता है।

५ तैलीय और विषैले पदार्थों से परहेज आयुर्वेद के अनुसार, अत्यधिक तैलीय, मसालेदार और प्रोसेस्ड फूड से परहेज करना चाहिए। ये पदार्थ शरीर में अमा (विषाक्त पदार्थ) उत्पन्न करते हैं, जो गंभीर बीमारियों का कारण बन सकते हैं।

अभियान में भागीदारी कैसे करें?

१ शेविंग से परहेज पूरे महीने दाढ़ी न बनाकर कैंसर पीड़ितों के प्रति सहानुभूति दिखाएं।

२ बचत का दान ग्रूमिंग खर्च की बचत को कैंसर रिसर्च और इलाज के लिए दान करें।

३ स्वास्थ्य जांच स्वयं की नियमित स्वास्थ्य जांच कराएं और दूसरों को भी इसके लिए प्रेरित करें।

४ जागरूकता फैलाएं सोशल मीडिया और अन्य मंचों पर कैंसर जागरूकता से जुड़े संदेश साझा करें।

नो शेव नवंबररु एकजुटता और प्रेरणा

नो शेव नवंबर हमें याद दिलाता है कि हमारी छोटी-सी कोशिशें बड़ी समस्याओं के समाधान में सहायक हो सकती हैं। कैंसर जैसे घातक रोगों के खिलाफ लड़ाई में आयुर्वेद, आधुनिक चिकित्सा और सामूहिक प्रयास एक महत्वपूर्ण भूमिका निभाते हैं। इस अभियान के जरिए हम एकजुट होकर कैंसर पीड़ितों की मदद कर सकते हैं और अपने स्वास्थ्य की जिम्मेदारी ले सकते हैं।

आइए, इस नवंबर हम सभी इस अभियान का हिस्सा बनें, जागरूकता फैलाएं और कैंसर के खिलाफ लड़ाई में अपना योगदान दें। साथ ही, आयुर्वेद के सिद्धांतों को अपनाकर स्वस्थ जीवनशैली की ओर कदम बढ़ाएं। याद रखें, एक छोटी-सी कोशिश लाखों जिंदगियों में बड़ा बदलाव ला सकती है।

कुणाल मराठे

सहायक कुलसचिव

MIT-WPU PRODIGIES

Employee of the Month

November 2024

Shiv Ratan Singh
Security & Vigilance

Mr. Shiv Ratan Singh supervised campus security operations, ensuring all duties at key locations including bungalows efficiently without lapses. His frequent on-site inspections and consistent follow-ups have improved the overall performance and accountability of the security staff. Surpass expectations, and trustworthy. His major contributions and achievements include: Demonstrated exceptional dedication in supervising campus security operations, ensuring seamless execution of duties at critical locations, including bungalows. His proactive on-site inspections and consistent follow-ups have enhanced the accountability and performance of the security team.

Key Contributions and Achievements:

Traffic Management During Peak Hours: Shiv Ratan Singh effectively reduced traffic congestion by deploying personnel strategically and implementing real-time adjustments, decreasing wait times by 20% and improving daily experiences for all. **Campus Duties Oversight:** He ensured efficient management of security tasks across campus, including bungalows, with zero lapses. **Access Control Management:** His leadership in access control significantly reduced unauthorised entries and related complaints.

Pravin Shinde
School of Liberal Arts

Mr. Pravin Shinde plays an active and proactive role in liberal arts office administration, efficiently managing his primary responsibilities. Additionally, he contributes as a teaching assistant for the media course, where his exceptional graphic design skills have made the course more interactive and significantly enhanced the students' learning experience. Beyond other school-level activities, he actively participates in university-level tasks, including designing the annual report and creating various visuals for events. His performance consistently exceeds expectations, with outstanding contributions to both school and university initiatives. His performance is more than 100% and contribution in various school level and university level task.

Shubhada Lokhande
Human Resource

As per university policy, 50% of non-teaching staff are required to work on Saturdays. Recently while two staff members were on medical leave, there was no one available to manage operations functional responsibilities on a weekend. Despite it being her scheduled weekly off and having important personal commitment, Mrs. Shubhada Lokhande willingly stepped in and diligently fulfilled her duties. This marks the second instance in six months where she has demonstrated exceptional dedication and flexibility by adjusting her leave to meet important departmental requirements. Her cooperative attitude and readiness to support the team during challenging times are truly admirable and greatly valued.

Employee of the Month

December 2024

Mr. Laxman Bikkad
Program Office- DIV 1

Mr. Laxman Bikkad plays a pivotal role in the Program Office, FoET, Division-I, efficiently managing multiple responsibilities. He has successfully overseen the PwC ERP implementation, impacting over 1137 students and 47 faculties across various diploma programs. His academic administration expertise ensures the smooth handling of 75+ students as well as faculties queries monthly. Additionally, he is responsible for the last batches of 100+ MSBTE students, ensuring their academic and examination requirements are met seamlessly. His structured approach, strong knowledge base, and ability to handle 100% of daily operations independently make him an indispensable asset to the team.

Mr. Nilesh Satav
Central Workshop

Mr. Nilesh Contributed for new product developments continuously till date and is a very skilled Welder e.g. Bench design for Design school, Trolley development for Library books transfer. Fabricated many students' projects in welding and his own new projects/ideas execution. He showed his skills with development of the Biodiesel project and block testing equipment including the recent Eiffel Tower work. Shown his Creativity and innovation through fabrication of different prototypes. Apart from that he has also contributed to MIT-WPU values through the Peace project at Badrinath in team and shown his trust to challenging work. He is a real performer and contributor to our central Workshop Welding lab and Simulator.

Pulse

THE HEARTBEAT OF MIT-WPU

Dear Esteemed Readers,

As we embrace the promising dawn of 2025, it's an opportune moment to reflect on our remarkable journey and commend the exceptional achievements of the MIT World Peace University community. The past year has been a rich tapestry of successes, highlighting our steadfast dedication to excellence and our foundational values of peace, progress, and purpose. Entering this new year, let us set ambitious goals and work collaboratively to transform our aspirations into reality. By uniting our efforts, we can uphold the principles that characterize MIT-WPU and ensure that 2025 becomes a transformative year for both ourselves and our wider communities.

May this year be filled with abundant success, joy, and extraordinary accomplishments!

Warmest regards,

You are living Pulse
